

End Term (Even) Semester Examination May-June 2025

Roll no.....036.....

Name of the Program and semester: **MCA - II**
Name of the Course: **Advanced Java Programming**
Course Code: **TMC-202**
Time: 3 hour

Maximum Marks: 100

Note:

- (i) All the questions are compulsory.
- (ii) Answer any two sub questions from a, b and c in each main question.
- (iii) Total marks for each question is 20 (twenty).
- (iv) Each sub-question carries 10 marks.

Q1.

(2X10=20 Marks) CO-1

- a. What is the difference between String class over StringBuffer? Write a program to find sum of numeric digits of a string input by user at run time.
Example: Input String :he12llo34 Output : 10
- b. What is method-overriding? Write a program to show the use of super keyword. What are various collection framework classes?
- c. What is the use of protected keyword? Explain by the help of example where we can use a subpackage class. Write a program to show the working of static import?

Q2.

(2X10=20 Marks) CO-1, CO-2

- a. Write a java program to handle any two unchecked exceptions. where do we use the user-defined exception?
- b. Write a java program to implement MouseEvent and MouseListener interface?
- c. Define Servlet. Explain the basic servlet structure and its life cycle methods.

Q3.

(2X10=20 Marks) CO-1, CO-2, CO-3

- a. What are the basic steps to create a JDBC connection? Write a JDBC program to store and retrieve records from the database.
- b. Write a Servlet program to read data from a HTML form (Languages(known) data from check boxes and Result data from radio buttons) and display.
- c. What is the role of InetAddress class in java? Write a code to send a string from machine1 to machine2, modify it by converting the small alphabet into capital and send back the string to machine1 and display edited string there.
